

50' Performance Cruiser

Life is too short to accept compromises.

**With the KNIERIM 50 you get it all -
a high performance racer and
a comfortable long range cruiser.**

There is no reason to be satisfied with less...

This 50' Performance Cruiser is a further development of Knierim's successful 49' series. The state-of-the-art Judel/Vrolijk & Co design, based on the latest offshore racing developments, guarantees ultimate speed combined with elegant lines. Using [carbon fibre sandwich](#) material for hull and deck makes the boat lightweight and stiff. The carbon fibre rig with composite standing rigging further reduces the weight and optimizes the [sailing performance](#).

The [new concept deck layout](#) with 2 cockpits is clear and functional for easily handling the boat by a crew of 2. As a true dual purpose boat the KNIERIM 50 can also be raced with a full crew.

The **luxurious interior** is built to owner's choice. It is designed for long range cruising in comfort and style. All wooden surfaces are made of **high gloss varnished ash** with a horizontal grain. It matches perfectly with the white varnished bulkheads and doors.

The **spacious master stateroom** forward has a king size bed. The ensuite head and shower stalls are separated. The galley, located on port side aft of the full width saloon, is equipped to highest standards. The aft cabin with accommodation for 4 crew includes a fully equipped navigation area and can be accessed directly from the aft cockpit.
